Latitude 33 Aviation Introduces Factory-New Pilatus PC-12 NGX to Charter Fleet.

Carlsbad, CA – Latitude 33 Aviation, a leader in private aviation, is proud to announce the addition of a **factory-new Pilatus PC-12 NGX** to its charter fleet. This state-of-the-art turboprop aircraft offers an unparalleled combination of performance, comfort, and efficiency, providing travelers with an exceptional private charter experience.

Renowned for its **versatility**, the Pilatus PC-12 NGX is the perfect solution for a wide range of travel needs, from executive business trips to remote leisure getaways. With the ability to access **shorter runways**, this aircraft unlocks destinations beyond the reach of traditional jets—enhancing flexibility and convenience for Latitude 33 Aviation clients.

"We're excited to add a brand-new 2024 PC-12 NGX to our fleet," said Solomon Short, Owner of Latitude 33 Aviation. "This beautiful aircraft not only diversifies our offerings but also strengthens our position in the charter market by providing a cost-effective, comfortable, and versatile option. Its advanced technology, proven reliability, and expanded operational capabilities align with our commitment to excellence in private aviation."

Key Features of the Pilatus PC-12 NGX:

- **Factory-New Delivery** – Experience cutting-edge advancements in **avionics, aerodynamics, and cabin design** in one of the newest PC-12 NGXs available.
- **Unmatched Versatility** – Land on **short, unpaved, and remote runways**, reaching destinations inaccessible to traditional jets.
- **Cost-Effective Luxury** – Enjoy the efficiency of a turboprop **without sacrificing comfort**, making private aviation more economical.
- **Spacious & Comfortable Cabin** – Designed with **executive-style seating, large windows, and advanced noise reduction** for a smooth and relaxing flight experience.
- **Exceptional Useful Load** – Ideal for travelers carrying **business equipment, outdoor gear, or extra luggage**.
- **Unrivaled Engine Reliability** – Powered by the **Pratt & Whitney PT6**, one of the most dependable turboprop engines in aviation history.

Latitude 33 Aviation currently manages a **diverse fleet of aircraft**, ranging from **turboprops to heavy jets, including multiple ultra-long-range aircraft**. The addition of the Carlsbad-based **Pilatus PC-12 NGX** further underscores the company's dedication to providing **versatile, cost-efficient, and luxurious private travel solutions**.

For more information or to book a charter flight on the **new Pilatus PC-12 NGX**, please contact **Charter@L33Jets.com**.
