# **Latitude 33 Aviation Expands Charter Fleet with First Gulfstream Aircraft Available for Charter**

**Carlsbad, California** – Latitude 33 Aviation is pleased to announce the addition of the Gulfstream G450 to its charter fleet, marking the company’s first Gulfstream aircraft available on its charter certificate. This milestone expands the company’s large-cabin charter capabilities and strengthens its ability to support long-range, international, and globally supported private charter missions.

Serving discerning travelers throughout Carlsbad, San Diego, Orange County, Los Angeles, and beyond, the Gulfstream G450 introduces enhanced range, comfort, and performance to Latitude 33 Aviation’s charter offerings.

---

## **First Gulfstream Added to Latitude 33 Aviation Charter Fleet**

Latitude 33 Aviation has long managed multiple Gulfstream aircraft for private owners across its fleet. With the introduction of the Gulfstream G450 to its charter certificate, the company is bringing the prestige and performance of Gulfstream directly to the charter market for the first time. This aircraft represents a meaningful enhancement to the company’s charter program, providing access to a true large-cabin jet with renowned reliability and inflight comfort.

“With the addition of the Gulfstream G450, we are elevating what we can offer to our clients in Southern California and around the world,” said Jesse Cunningham, Director of Charter. “This aircraft delivers exceptional capability, extended range, and a premium cabin experience, while aligning perfectly with our commitment to safety, professionalism, and personalized service.”

---

## **Expanding Worldwide Charter Capability**

With a range of up to approximately 4,100 nautical miles, the Gulfstream G450 is ideally suited for nonstop transcontinental and long-range missions. Charter clients can now enjoy nonstop flights from Carlsbad and Southern California to New York, Florida, Hawaii, Mexico, and select international destinations, as well as seamless worldwide charter support.

This aircraft opens the door to expanded global charter operations for Latitude 33 Aviation, supporting travelers who require intercontinental capability, elevated comfort, and dependable performance.

---

## Premium Large-Cabin Comfort

The Gulfstream G450 offers a spacious cabin environment with refined finishes, Gulfstream's signature panoramic windows, and enhanced sound-suppression technology for a quieter inflight experience. The aircraft comfortably seats up to 14 passengers and offers sleeping accommodations for up to six guests. Multiple cabin seating zones, a four-place conference and dining area, a fully equipped galley, **STARLINK high-speed Wi-Fi**, in-flight accessible baggage, and advanced entertainment features ensure both productivity and relaxation throughout the flight.

Designed to reduce passenger fatigue and enhance overall wellness, the G450 maintains a lower cabin altitude and continually refreshes cabin air, helping passengers arrive feeling rested and ready.

---

## Committed to Exceptional Charter Service

As one of the leading private aviation operators in the Western United States, Latitude 33 Aviation continues to expand and enhance its charter capabilities while maintaining its reputation for operational excellence, service, and safety.

The Gulfstream G450 is now available for charter from McClellan-Palomar Airport (KCRQ) in Carlsbad, California, as well as additional Southern California airports, including San Diego, Orange County, and Los Angeles.
